

Worksheet 3a.A2

Competency: Accountability—Data Comparison

1. Compare a data report from your office with equivalent data from another unit, office, or county. How does the data compare?

2. In what areas is the data from your agency more positive? Less positive?

3. What contextual factors should be considered when comparing these data?

4. Based upon this information, what strategies could your office employ to address the issues these data raise?
